Roadway collision with other vehicle(s)—moving and standing vehicle	3	--	--	--	--	--	--	--	--
<b>Falls, slips, trips</b>	5	--	3	--	--	--	--	--	--
<b>Exposure to harmful substances, environments</b>	4	--	--	--	--	--	--	--	--
<b>Contact incidents</b>	4	--	--	--	--	--	--	--	--

<sup>1</sup> CFOI has used several versions of the North American Industry Classification System (NAICS) since 2003 to define industry. For complete information on the version of NAICS used in this year, see our definitions page at <https://www.bls.gov/opub/hom/cfoi/concepts.htm#north-american-industry-classification-system-naics>. Cases where ownership is unknown are included in private industry counts. Cases classified as foreign government and other government are included in all government counts, but not displayed separately. Cases where industry is unknown are included in the service sector counts.

<sup>2</sup> Based on the BLS Occupational Injury and Illness Classification System (OIICS) version 3 implemented for 2023 data forward. For complete information on the OIICS version used in this year, see the OIICS manual page at <https://www.bls.gov/iif/definitions/occupational-injuries-and-illnesses-classification-manual.htm>.

<sup>3</sup> Includes fatal injuries at all establishments categorized as Mining (Sector 21) in the North American Industry Classification System, including establishments not governed by the Mine Safety and Health Administration (MSHA) rules and reporting, such as those in Oil and Gas Extraction.

Note: Data for all years are revised and final. Totals for major categories may include subcategories not shown separately. For complete information on how the data are coded and presented see our definitions page at <https://www.bls.gov/iif/definitions/census-of-fatal-occupational-injuries-definitions.htm>. Dashes indicate no data reported or data that do not meet publication criteria. N.e.c. means "not elsewhere classified." CFOI fatality counts exclude illness-related deaths unless precipitated by an injury event.
